Languages

Spanish: Native

English: Advanced

Portuguese: Advanced

Experience

Medical and customer service interpreter (Remote)
Two years of experience

- I provided high-quality remote support as a customer service and medical interpreter, ensuring accurate and effective communication between clients and professionals in bilingual settings, with a strong focus on precision and responsibility.

Software experience

- Full Stack Development (React.js + Node.js + MySQL) (Freelance / Personal projects)

Currently expanding skill set to include

- ASP.NET Core MVC + Entity Framework (C#)

Skills

- Bilingual Communication: Fluent in Spanish (native) and advanced in English; skilled in providing multilingual support.
- Remote Work: Experienced in working independently and maintaining high productivity with minimal supervision.

Education

- Associate Degree in Programming | National Technological University (UTN).

- Advanced English Proficiency, certified by EF International School (San Francisco, California).

- Secondary School Diploma, completed at E.E.T. No. 21 "Gral. Manuel Belgrano"
